THE REPUBLICAN VICTORY IN MASSACHUSETTS.

The triumphant election of Mr. Banks, and the choice of a Legislature overwhelmingly Republican as reported in our telegraphic despatches from Massachusetts, is gratifying, not only from the active and vindictive opposition to the Republican nominee, and from the fact that the Gardner party resorted to base deception to induce many Republicans to vote for him—but it is especially gratifying in view of the insolent and boastful claims of the Gardner papers previous to the election. The Courier, the Traveller and the Post vied with each other, not only in their supercilious contempt and villainous abuse of the men and misrepresentation of the objects, of the Republican party, but also in the confident braggadocio with which they predicted the utter defeat of the Republican candidate. They were either guilty of the most outrageous lying, in the assertion of what they did not themselves believe, or they were deceived by their own returns to an extent perfectly disgraceful to any set of political canvassers. We incline somewhat to the former opinion. We think the Gardner managers knew they were lying when they published in the Traveller of Oct. 28 what purported to be a calculation made from returns of an actual canvass of the State—and that they put forth these figures for the mere purpose of disheartening Mr. Banks' friends. They missed their calculation, however, very widely in this. The Republicans knew the vitality and the strength of the great cause of freedom in the hearts of the people,—and were not to be intimidated by the abuse, nor disheartened by the boastful predictions of their enemies.

The figures of the Traveller are interesting to look at when compared with the actual result. That paper put down the pluralities as follows, calculated, as it said from actual returns, and "always giving the benefit of any doubt in favor of Banks."

	Gardner.	Banks.
Barnstable	600	
Berkshire		tie.
Bristol	1,000	
Dukes	100	
Essex	2,500	
Franklin		1,600
Hampden		tie.
Hampshire		1,000
Middlesex	3,000	
Nantucket		tie.
Norfolk	3,000	
Plymouth	1,000	
Suffolk	5,000	
Worcester		500
	16,200	3,100
	3,100	

Gardner's plurality, 13,100

This calculation the Traveller said was "a perfectly safe one"—and closed its article as follows:

We say, then, the prospect of Gov. Gardner's re-election is as certain as any future event well can be, and we doubt not that now, a week before election, ten men believe he will be chosen, where one thought so at the same relative period in 1855.

How completely were all these boastful predictions scattered to the winds by the actual returns! Instead of Gardner's figured plurality of 13,000, Banks has an actual plurality of over 23,000.

And to show how moderate were some of the Republican estimates, and how free from any attempt at deception, requires but a glance at a table published in the Journal of Tuesday morning. This estimated the whole vote of the State at 137,000, and put Banks' plurality at 10 000 only. This the Journal said was reliable—but not up to what it called the "wild guesses" of some of the Republicans, who estimated Banks' plurality as high as 20,000.—This appears to have been not so wild an estimate after all.

In Suffolk county the Traveller claimed 5,000 plurality for Gardner—the Republicans allowed him 3000—he gets but about 1000.—And so through the State. The bunker estimates were blown to the winds—and the papers which were so insolent and boastful towards the Republicans now meet with just contempt on all hands.

As to the Traveller, which so treacherously deserted the Republican party in the face of the battle, we hope no Republican in Maine will hereafter give it a copper's worth of support. We are gratified indeed to see it stated that its sales have fallen off from one-half to three-fourths in many parts of this State.—We learn that the sale of the Traveller in this city has fallen off from 200 copies to 75, and that the sale of the Journal has increased in a similar proportion.

The bunkers of all stripes now threaten to unite in Massachusetts, and form a party which they think will beat the Republicans. This is the very movement which the Republicans desire above anything else. Let the people once see these gentlemen under their true colors and they will overthrow them as signally as combined bunkerdom has been overthrown in Maine. This fusion into the Democratic party is now going on in New York, Pennsylvania, Ohio, and other important States, and leaves the Republicans a fair fight with the undisguised pro-slavery party. Could the people have had this clear view of the enemy last year, Fremont would have been elected.

By the latest advices from Europe, a tight money market and a breaking up of business appears to have prevailed in all the commercial communities of that continent, simultaneous with the same state of things in the United States. In France it has not showed itself so much, owing to the Bank of France having just expanded its discounts; but in Germany and Great Britain it was severe before the accounts from the United States were received, and some heavy failures had occurred. The English journals say the losses by the failures in the United States will fall as heavily upon France as upon Great Britain. Manchester, Glasgow and Bradford are named as the British places which are likely to be the greatest sufferers.

The London Times of the 13th anticipates that the Bank of England, before it can check the drain of bullion, will be obliged to raise the rate of interest to 8 per cent, the highest rate it has ever reached in modern times, and at which it stood in October, 1847. It looks also for the same reaction now as then, when within a year afterwards the rate of interest went back to 3 per cent. The Times says, "in America the arrears now due to England and the continent are enormous, and are accumulating every week."

[See later accounts by telegraph.]

The confidence of the Gardner men that they were going to defeat Mr. Banks was very strong—and their disappointment must be proportionally bitter. Their premature exultations are now coming to read. An instance or two occurred at the grand "Gardner Rally" at Faneuil Hall, on the evening before the election. Among the speakers was Judge Fletcher. From the Traveller's report we cut the following rich paragraphs:

At this moment an alarm of fire caused a stampede of a number of persons from the Hall, when Mr. Fletcher said there would be a greater excitement among the Republicans to-morrow night, when they heard of the defeat of Banks.

[The entrance of the Charlestown delegation here, caused great enthusiasm.]

Mr. Fletcher said that the enthusiasm was nothing to that which would go up to-morrow night, when it should be seen that Governor Gardner was re-elected a fourth time.

The result shows a slightly different state of things. The Gardner enthusiasm the next night was in fact, nothing to that which then existed. Reverse Judge Fletcher's statement of the case, and it was exactly true.

The Newburyport Herald, in speaking of the prospects of the election, said:

"The State canvass has been actively carried on for the last two weeks; and if figures don't lie—and they say they won't—Gov. Gardner is stronger by thousands of votes than in 1855. This can be relied on. The leading Gardner men of Boston are fully assured of success; and the Banks committee are quite as well convinced of their defeat.—When a bet of $600 was taken the other day, in Boston, on Banks' election, a distinguished leader of the Banks party, who held the money, remarked there's six hundred lost."

Yes—but he meant that your Gardner friend had lost it, Mr. Herald. Never put up money on the faith of bunker figures. They do lie confoundedly, sometimes.

Gov. Walker Censured by the President.

NEW YORK, Nov. 3. (Tribune Correspondence.) President Buchanan openly declares that he has written to Gov. Walker censuring his course in rejecting the Oxford precinct returns. While the President dare not now take the responsibility of removing Walker, he will nevertheless endeavor to compel his resignation.

(Times Correspondence.) While Mr. Buchanan will not remove or publicly censure Gov. Walker, he does nevertheless, privately express disapprobation of his course in the Oxford affair. He says he has written a private letter to Walker charging him with violation of his instructions, and rebuking him therefor. While the President will not take the responsibility of removing him, there is great reason to fear that he will make his resignation necessary for the maintenance of his self-respect.

As the Boston Journal says—The whole affair is Democratic in persons, results and vital interest; but the dilemma appears to outsiders like this: If Walker is condemned for rejecting these palpable and outrageous frauds, the fragments of the Democratic party north are engulphed at once and forever; if he is upheld by the administration, then the southern chiefs rebel, and Mr. Buchanan is immediately shorn of a majority support in Congress for the rest of his term.

A SLOW GAME OF CHESS.—At the chess Congress in the city of New York, Messrs Paul Morphy and Louis Paulsen are playing their final contest for the prize of $300 in the grand tourney. The Congress has decided to restrict each player to half an hour's reflection previous to each move, after the conclusion of this game. Hitherto the time has not been restricted, and Mr. Paulsen, in making one move a few nights ago, consumed one hour and fifteen minutes.

It is said that the true reason why the Independent has discontinued the publication of the list of failures is that the announcement of a house as failed is made a pretext for withholding all remittances from the West and South, where people who owe the East are holding their corn and cotton for high prices, and allowing their creditors to fail.

THE NEW TERRITORY OF ARIZONA.—Private advices have been received from Arizona, indicating the election of Lieut. Mowry as delegate to Congress, without opposition. The election was to be holden on the 2d of September. Application will be made to Congress for the organization of the Territory—and for the legalization of this informal election.

FROM KANSAS—ANOTHER PROCLAMATION.—*Lawrence, K. T., Oct. 24.* Gov. Walker has issued a second proclamation in relation to the election frauds in Kansas. He rejects twelve hundred more votes returned from three precincts of McGee county, the number of legal voters to which is less than one hundred.

The Constitutional Convention which met at Lecompton on the 19th, obtained a quorum on the 22d, and elected C. J. McIlvaine as clerk. The official returns of the election, deducting the twelve hundred fraudulent votes from McGee, rejected by Gov. Walker, give Parrott, Free State, a net majority of nearly four thousand over Ransom, with Leavenworth County to hear from.

LOCAL AND MAINE NEWS.

MR. WILDER'S SINGING SCHOOL.—We call attention to the advertisement of Mr. Wilder's Singing School,—to be opened for the fall campaign, at Johnson's Hall on Main Street, this evening, (Nov. 5th,) Mr. W. has given instructions in vocal music, in this city, both to adults and juveniles, for a number of years, and has proved himself one of the best teachers that we have ever had among us. His well known musical talent, and his aptitude and faithfulness as a teacher, as well as the great satisfaction he has heretofore given, will undoubtedly secure him a full school.

ASSAULT UPON CAPT. SANFORD.—The Union has the following statement:

We learn that on Monday evening about 6 o'clock, at which hour the steamer M. Sanford arrived at Rockland, Capt. C. B. Sanford was set upon on the dock by a ruffian, from whom he received a heavy blow on the head, probably given with a stone held in the fist, by which he was prostrated senseless. The assailant then jumped upon him and kicked him. The assault was so sudden that no one had time to come to Capt. Sanford's assistance or to arrest the scoundrel, who fled. We understand Capt. Sanford's injuries are quite severe. The only explanation we have heard of, as the probable cause of the assault is that last week, while the steamer was lying at Rockland, Capt. Sanford had occasion to use summary measures to check the rowdyism of a Rockland passenger, who swore he would be revenged.

Brig Volunteer, from Malaga Sept. 12, with a cargo of fruit, arrived at Portland on Sunday. This is said to be the first cargo of fruit ever imported direct into Portland.

The late rains will enable all log owners, who desire to, to drive their logs into the booms. The season thus far has been very favorable for sawing, and the prospects now indicate that the stock of logs on hand will be nearly used up. Considerable lumber will remain on the wharves, but no more, probably, than at the commencement of spring sawing.—*Machias Union.*

Mr. E. B. Foster, of this place, had his head and face severely injured, by the bursting of a gun, which he fired, on the 20th.—The sight of one eye was at first thought to be lost, but hope is now entertained of its recovery.—*Machias Union.*

SERIOUS ACCIDENT.—On Tuesday last, while a freight train on the Grand Trunk Railroad was passing Wild River Bridge, Mr. George Stearns, the Conductor, attempted to look over the top of the cars, when his head struck the bridge, and his scalp was torn entirely off. At latest accounts his injuries had not proved fatal, although little hopes were entertained of his recovery.

Judge Davis commenced the October term of the S. J. C. for Hancock Co. at Ellsworth, on Tuesday last.

Some villain laid a rail across the track of the K. & P. R. R., in Cumberland, on Saturday night. The last train from Portland to Augusta ran on it, smashing the "cowcatcher" and damaging the engine slightly. The train however was not stopped.

LAUNCHED.—At Milbridge, 17th inst., a barque of 400 tons, called the Augusta Mayhew, built by E. Dyer, and to be commanded by Oliver Thorn of New York, who is part owner.

The Necromancer in Algeria.

Every one has seen, or heard speak of the great Robert Houdin. Besides being the prince of conjurers, he is an able mathematician and mechanician, and his electric clock, made for the Hotel de Ville of his native town of Blois, obtained a medal at the Paris Exhibition. It is not generally known that he was sent to Algeria by the French Government on a mission connected with the black art—probably the first time that a conjurer has been called upon to exercise his profession in Government employ. Some details of his expedition have just been published. Its object was to destroy the influence exercised among the Arabs by the marabouts—an influence often mischievously applied. By a few clumsy tricks and impostures these marabouts pass themselves off as sorcerers; no one, it was justly thought, was better able to eclipse their skill and discredit their science than the man of inexhaustible bottles. One of the great pretensions of the marabout was his invulnerability. At the moment that a loaded musket was fired at him, and the trigger pulled, he pronounced a few cabalistic words and the weapon did not go off. Houdin detected the trick, and showed that the touchhole was plugged. The Arab wizard was furious, and abused his French rival. "You may revenge yourself," quietly replied Houdin, "take a pistol, load it yourself; here are bullets, put one in the barrel, but before doing so mark it with your knife." The Arab did as he was told. "You are quite certain, now," said Houdin, "that the pistol is loaded and will go off. Tell me, do you feel no remorse in killing me thus, notwithstanding that I authorize you?" "You are my enemy," coolly replied the Arab; "I will kill you." Without replying, Houdin stuck an apple on the point of a knife, and calmly gave the word to fire. The pistol was discharged, the apple flew away, and there appeared in its place, stuck on the point of the knife, the bullet the marabout had marked. The spectators remained mute from stupefaction; the marabout bowed before his superior; "Allah is great!" he said, "I am vanquished."

Instead of the bottle from which, in Europe, Robert-Houdin pours an endless stream of every description of wine and liquor, he called for an empty bowl, which he kept continually full of boiling coffee, but few of the Arabs would taste it, for they made sure that it came direct from the devil's own coffee-pot. He then told them that it was in his power to deprive them of all strength, and to restore it to them at will, and he produced a small box, so light that a child could lift it with his finger; but it suddenly became so heavy that the strongest man present could not raise it, and the Arabs, who prize physical strength above everything, looked with terror at the great magician who, they doubted not, could annihilate them by the mere exertion of his will. They expressed this belief. Houdin strengthened them in it, and promised that on a day appointed he would ... of them into ...

The day came; the throng was prodigious; a fanatical marabout had agreed to give himself up to the sorcerer. They made him stand upon a table and covered him with a transparent gauze; then Houdin and another person lifted the table by the two ends, and the Arab disappeared in a cloud of smoke. The terror of the spectators was indescribable; they rushed out of the place, and ran a long distance before some of the boldest thought of returning to look after the marabout. They found him near the place where he had been evaporated; but he could tell them nothing, and was like a drunken man, ignorant of what had happened to him. Thenceforward Houdin was venerated, and the marabouts despised; the object of the French Government was completely attained.

The Boston Journal says New York City gave a plurality of but 29,000 for Buchanan. His plurality in that city was in fact 24,142 over Fremont.

THE GARDINER AND AUGUSTA COUPONS.—We learn that the interest on the coupons of the cities of Gardiner and Augusta, Me., is now on deposit at the Shawmut Bank, and will be paid. The delay arises from a misunderstanding between one of the bank officers who is absent and his colleagues at the bank.—*Boston Journal.*

BANGOR BAP.—The Traveller feels bad. It squirms. Its bones ache. In plunging into Gardnerism it committed a ruinous mistake—one that it will not soon recover from. It feels bad. Poor fellows, they are doomed to feel worse.—*Daily Bee.*

A letter from Rev. Charles Hibbard, missionary in Burmah, to his father, Joseph Robinson, Esq., of this city, has been handed to us for publication, from which we make the following extracts.—Providence Journal.

NEWTON, Maulmain, June 6, 1855.

Dear Father—Will you kindly say to Mr. Davis that Mrs. Hibbard and myself, and indeed I might add all who came out with us, feel very grateful for the box of Pain Killer he gave us when we left our native land for Burmah. I have used it for coughs, colds, violent internal pains, summer complaints, burns, bruises, and for the sting of scorpions with uniform success. The only severe spasm of the stomach which Mrs. Hibbard has had in Burmah was instantly relieved by the Pain Killer. We always keep it where we can put our hands on it in the dark, if need be. Although I took Mr. Nesbit's box when he returned to America, yet it is all gone but three or four bottles, and that would have been gone long ago had I not refused to part with it. The Karens are beginning, are beginning to learn its value, and call for it, but I have to deny them, except in doses, for we could not think to being without it.

This bereavement has rolled a dark wave of affliction over the whole family circle, and her loss is deeply felt by all who knew her. She was exceedingly dear to them, and in all respects worthy of the love she had won in their hearts. Amiable, virtuous, intelligent, loving and beloved, she had much enjoyment to anticipate here below, and nothing to dread beyond the grave. But the summons came early, unexpectedly, and effectively, especially to those who had so much to lose. She departed in peace to the spirit-land, leaving the bereaved to mourn almost unconsolably their own loss, without doubting that it was her gain, and that she was welcomed by bright spirits to a spheral home of immortal blessedness. May they be comforted, sustained, purified and prepared to meet her in mansions of deathless ... [Com.

ARRIVAL OF THE

HALIFAX, Nov. 4.

The Canada sailed from Liverpool at noon on the 24th ult., and arrived at Halifax at 8 A. M., to-day.

The Indian arrived at Southampton on the 23d.

Financial matters are still the most interesting portion of the news in London.

On Wednesday 21st, the funds showed undiminished firmness at a slight advance over

On these dealings money was in good supply as to rate on government securities, and at the bank and discount market there was an absence of pressure.

The Times city article, dated Wednesday evening, says the advance in the bank rate to 8 per cent seems greatly to have checked the exportation of gold to New York. The Arago from Southampton, to-day, has taken out £30,000 from France, but only £7,000 from Reg. ard, will do the total by the City of Baltimore from Liverpool is only £8,200. It was intended to send £20,000 by the latter vessel, but the bank movement caused the principal portion to be countermanded. The quantity of goods being forwarded is very small, and this fact will tend to improve the American exchanges.

The India Company gave notice of a further rise of 4 per cent in their rate for bills on India.

On Thursday the 22d, funds exhibited great steadiness, closing at a slight advance.

The Times says the money market is exceedingly quiet, and owing to the absence of any important failures and the signs of general stability among leading manufacturing and shipping firms throughout the country, a very satisfactory feeling is observable. Uncertainty still prevails as to the probable necessity of any further upward movement on the part of the Bank; but the question will perhaps be solved before the lapse of another week. The demand was comparatively moderate both at the Bank and out of doors.

Numerous suspensions continue to be announced on the continent, especially among manufacturing firms in Germany.

The Bank of England had thrown out some American bills, known or supposed to be connected with intended shipments of specie to the United States.

On Friday funds continued buoyant.

The rate of discount at Hamburg declined to 3½.

No gold withdrawals from the Bank.

The Times says the Canada takes out tenders for £100,000 eight per cent bonds of the Michigan Central Railroad, for the extinction of a portion of their floating debt.

The value of money on the stock exchange remains as low as five per cent.

The Daily News says the demand for money at the Bank was heavy.

The American horse Pryor is dead.

Lord Macaulay has been elected High Steward of Cambridge.

The papers continue to publish lengthy speeches by prominent men on the affairs of India. Amongst others, the Duke of Cambridge addressed the citizens of Sheffield on the occasion of laying the foundation stone for the Crimean monument. He urged identification to the volunteers, and stated that recruiting was progressing in a perfectly incredible manner.

Mr. Gladstone spoke upon educational questions at Liverpool. He looked upon patronage as the curse and plague of the country, and hoped for the day when nearly every office will be held up in the face of the country and given to the best candidate.

An examination in the Bankruptcy Court, London, brought to light extraordinary exposures in regard to the manufacture of accommodation bills by commercial men.

The London Times, taking for a text a protectionist article from an American paper, exhorts free trade principles, and expresses surprise that they make such slow progress in the United States.

A farewell demonstration by temperance men was given to Neal Dow at Liverpool, on the 23d. He is a passenger per Canada.

There is a monetary pressure on the banks of Ireland.

France.

The receiver general of taxes at Angers suspended, through bourse speculators, with a deficit in his accounts of £400,000.

The Daily News' Paris correspondent writes that the Governor of the Bank of France went to Compiegne on Tuesday, prepared to ask for a decree giving forced currency to the bank notes. It was not likely it would be granted. Bullion in the Bank of France is stated upon reliable authority to have decreased thirty-five millions of francs since last monthly returns.

Gold is being taken from the Bank of France for America.

Belgium.

The Bank of Belgium has advanced its rate of discount to five and a half per cent.

Denmark.

The Bank of Denmark has increased its rates of discount from five to six per cent.

Prussia.

The King was regaining his health very slowly indeed. It is inferred that his physicians, when officially called upon, will have to give such a certificate in regard to the probability of the King being able to resume his monarchial functions as will warrant the constitutional assumption of regency by the Prince of Prussia.

Austria.

The Vienna correspondent of the London Times, writing on the 19th, says that during the last two or three days there had been a lull in the financial pressure, but considered it probable that the crisis was very far from being at an end

Switzerland.

A letter from Zurich states that thirty commercial houses, principally in the silk and ribbon trade, had failed there.

Turkey.

A dispatch dated Jassy, Oct. 19, states that the Divan had come to a resolution in favor of the union of the Principalities under a constitutional sovereign chosen from one of western dynasties, with a representative form of government. The Wallachian Divan had arrived at a similar result.

The Turkish ministry had been overthrown. Redschid Pacha has been appointed Grand Vizier, Reis Pacha Minister of War. The Duke of Oporto, brother of the King of Portugal, is spoken of as a likely candidate to the throne of the United Principalities.

France is now said to regret that the question of union has gone so far, because serious complications must arise between Austria and Russia on the subject.

India.

Nothing later. Steamer Rona arrived at Southampton 22d, with heavy portions of the lost India mail, and numerous passengers who made hair breadth escapes from Sepoys.

By Telegraph from London to Liverpool. The Paris correspondent of the Daily News says that the overthrow of the Turkish Cabinet had long been foreseen, the Cabinet having found its financial difficulties beyond its strength.

The Russian Legation at Teheran has offered to Persia a division of the army of Caucasus to assist in the pacification of Khorassan.

The nomination of Redschid Pacha as Grand Vizier, is hailed as a triumph by opponents of the union of the Danubian Principalities, and it is said more confidently that the Porte will be supported in its policy in Principalities by England and Austria.

The Morning Star says it is thoroughly understood that not only the Premier but all the members of the Cabinet have finally arranged for the recall of the present Governor-General of India.

It is said that the French government have decided upon rescinding the prohibition against the export of corn and flour from France. One likely effect of this measure, according to the Daily News, will be to precipitate the fall in the English corn-market, which is already depressed by the high rate of interest, coupled with accounts from America.

The East India Company are about to make

SOME LARGE INVESTMENTS OF BULLION IN INDIA.

The Daily News remarks that the period is evidently drawing near when the expenditure entailed by the Indian revolt will exercise a more direct influence upon the English market.

The Count Lividis formally demanded the hand of the German Princess Stephanie of Sigmaringen for his Sovereign, King of Portugal.

It is officially stated that it is intended to launch the Great Eastern either on Nov. 3d or Dec. 2d.

London, Saturday, 10.15 A. M. During a recent conflict at Frankfort, between soldiers of the federal garrison and men of Austrian and Bavarian regiments, swords and bayonets were brought freely into use. A great number of soldiers were wounded on both sides.

The Servian government has made known that the plot recently discovered was of a republican character, and that the chiefs of it were in communication with leaders of existing movements in the Danubian Principalities.

Accounts from Constantinople state that the Porte considers that treaties have been violated by the recent appearance of a Russian ship of war at Rutschuck, and at has accordingly demanded explanations from the Russian Ambassador at Constantinople.

SECOND DESPATCH,

CALIFORNIA NEWS.

Arrival of the Star of the West.

NEW YORK, Nov. 4.

The steamship Star of the West from Aspinwall, arrived to-day, bringing six days later news than that by the Quaker City, and nearly a million and a half in treasure.

The rainy season had commenced in California.

Col. Fremont has purchased the Mercer and Mariposa canal.

Other murders have been committed by the Washo Indians, and the citizens are arming for defence.

Dates from Panama are of the 19th. An earthquake was felt there on the 15th. Also at Loja in Ecuador and Quito. At the former place numerous houses and churches were destroyed.

Political affairs in Peru are unchanged.

Don Raphael Escalante has been elected Governor of Costa Rica.

The Elections.

NEW YORK, November 4.

We have complete returns and reports received from twenty-one counties, including New York, Kings, Oneida, Albany, Jefferson and St. Lawrence, which give Tucker, democratic candidate for Secretary of State, about 29,000 plurality over Clapp, republican. The same counties gave King, republican, for Governor last year, 7000 plurality over Parker. The democratic net gain is 35,000. King had about 65,000 plurality last year. There are 60 counties in the State.

Well informed democrats claim the State by 10,000 to 15,000 plurality, but we do not yet perceive anything in the returns to lead to serious doubts but that the Republican State ticket is elected by a small majority. Several days will probably elapse before the exact position of parties can be known.

BALTIMORE, Nov. 4.

Our city election up to 2 o'clock was proceeding quietly. The drinking places are mostly closed, and the Mayor active in visiting the polls and exhorting all parties to respect the laws.

There are reports of serious disturbances in the remote wards. In the 17th ward an Irishman was killed, and another reported fatally wounded. Naturalized and other citizens were driven away from the polls in the 13th ward. Many other rumors are afloat, but they cannot be traced to a reliable source. Most of the other wards are quiet.

8.35 *P. M.* The election passed off more quietly in the latter part of the day than was expected, though there has been a good deal of disorder and some bloodshed. The parties in the 17th ward are not dead, but both are seriously if not fatally wounded. Another man was shot near the 4th ward polls this evening, but whether fatally or not is not yet ascertained. The police have captured a large quantity of arms. They had been taken from one or two of the armories.

9.30 *P. M.* The Americans are now marching the streets with music and transparencies, firing guns and pistols, cheering loudly, and claiming the election of their whole ticket.—The scattering returns indicate a gain on Fillmore's vote, whose majority was 7000. There is no doubt that the Americans have swept the State.

Trial of a Bank Robber.

TORONTO, Nov. 4.

Cummings, the officer of the Bank of Upper Canada, who was lately arrested for robbing the Bank, was tried to-day, found guilty of embezzlement, and recommended to mercy.

McGaffey, now under arrest in Buffalo for complicity in the same affair is undergoing an examination as to the validity of his arrest, and removed to Toronto under the Ashburton treaty. The case is exciting considerable interest.

Shooting Affair.

PHILADELPHIA, Nov. 4.

Richard Carter, President of the Anthracite Bank of Tamaqua, was shot dead this evening in the parlor of the St. Lawrence Hotel by Chas. Washington Smith of Cecil County, Maryland. Smith fired the first four balls from his revolver, and two more after Carter fell upon the floor. Carter is a middle aged man, wealthy and has a family. Smith is aged 33 years, and was laboring under great excitement. Carter had accused Smith of the seduction of a ward or adopted daughter of his. Smith stated that he met the girl as a boarding school, and married her. He subsequently discovered that she had been the mistress of Carter. She had a child four months after marriage. The shooting was in revenge. Smith was arrested, and is awaiting a hearing at the Mayor's office.

Vermont Legislature.

The Legislature to-day made the following judicial elections: Chief Justice—Isaac F. Redfield of Windsor; Associate Judges—M. L. Bennett of Burlington; Luke P. Poland of St. Johnsbury; Asa O. Aldis, St. Albans; Josh Bisspont, Vergennes; and James Barret, Woodstock.

The Full Vote of Massachusetts.

FLOUR,

Wheat Meal & Shorts.

THE subscriber has commenced manufacturing FLOUR, for one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Winter Wheat*, for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleansed before grinding, and the Flour is double bolted before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour of four different qualities, in unbolted wheat meal, and in shorts. A car load, 100 bbls, will arrive weekly, so that customers can be supplied at all times with Flour and Meal, fresh ground within ten days. The meal is in bags, consequently not injured by packing 196 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been bolted in large piles or in vessels, as is the case with nearly all the wheat manufactured in the large establishments for the large markets.

Dealers can be accommodated with a weekly supply on favorable terms.

Samples may be seen at the Store of JOHN McLAUGHLIN, No. 40 West Market place, where it is kept for sale.

ANTAGONISTIC

To Prejudice and Empiricism!

OLD DR. CULVERWELL'S

Member of the Royal College of Surgeons (1827,) Licentiate of the Hall (1824,) a 30 years Medical Referee, &c.)

Radical Regenerator,

FOR SEMINAL WEAKNESS,

In all it forms, as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Virility, Impotency, and all diseases arising from early indiscretion.

This excellent Remedy, discovered by the world renowned Dr. CULVERWELL in London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues. Its salutary effect is almost instantly felt, and it will doubtless at once supersede all other means resorted to, medical, surgical or otherwise, to arrest and to cure this awful disease. A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world. The heavy expenses incurred in bringing this article before the public could not be risked, were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by one person would, through recommendation, result in an eventual sale to many.

Dr. CULVERWELL'S admirable and entirely novel plan of treating these diseases is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR-REMEDY, so as to enable every one to treat himself or herself successfully. Price $5, on the receipt of which it will be forwarded by mail free of postage, to any part of the country. Address, Messrs. BRIDGMAN & CO., Druggists and Apothecaries, 253 Grand-St., New York, Sole Agents for the United States and Canada. Nov. 10. dawly.

THE LUXURY AND PROFIT OF

HONEY MAKING

☞ Torrey's Bee Hive.

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Piscataquis, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey making business, to be superior to everything yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary by providing for ventilation in all seasons of the year—room for the exercise and food of the bees—convenience for the removal of excrements for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey are the best adapted. In their size, for the market holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of Bees, with the new hives.

For hives and patent rights, &c. address

Alpine Hair Balm,

—FOR—

Restoring Gray Hair to its Original Color

WARRANTED to cure Baldness, Scurf, Dandruff, Itching, and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the Hair and gives it a natural color, without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol, and other deleterious materials, and all to no use. Hair dyes have been introduced that do not give the Hair a natural color, besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy, and after seven years trial has perfected this Balm. It is soothing and emollient, allays all irritation of the scalp, thereby stopping that troublesome itching. It cures Dandruff and Scurf, and when the hair has turned gray it will bring it back to its original color, be it Black, Brown or Auburn. It makes the Hair soft and glossy, prevents it from falling off as will be seen upon using this Balm for only a few days—life will be given to the roots of the Hair, and growth will soon appear. Growth does not take place at the end of the Hair, as will be seen in persons who have had their hair cut. If you examine gray hair that has been colored for a week, you will find, towards the root that the hair has come out gray; hence it is necessary to have the fluid at the roots of the hair healthy, that the whole hair may be a natural color. Each hair has a root in the skin, and is of itself a hollow, gray tube, through which there is a constant circulation of the pigment from the root. When this pigment or coloring matter dies out, it leaves the hair hollow, and it becomes gray. To invent a Balm that would produce this pigment has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the hair to its natural color by making anew the coloring matter in the roots of the hair.

It is a mistaken notion that oil or greasy will restore the hair, as nothing can be more injurious. The Alpine Hair Balm will restore the skin and save the hair of those who have been sick with fever or any other disease.

Dr. Wesley Grindle's

CELEBRATED

MAGIC COMPOUND,

—THE GREAT—

Remedy for Pulmonary Consumption.

Also an effectual cure for Scrofula, Dyspepsia, Obstinate Cutaneous Eruptions, Chronic Rheumatism, Bilious Disorders, General Debility, and all diseases depending on an impure state of the blood.

THIS WONDERFUL REMEDY has done more to alleviate human suffering than all other means put together. It has the greatest sale of any medicine in the world for *Pulmonary Complaints,* from Maine to the most retired dwellings of Oregon, or wherever Consumption is known, it finds its way, carrying health and joy into thousands of families. The most eminent physicians have been forced to acknowledge that it *does cure* consumption, and it try how used it in their practice as a standard and sure remedy.

There is no remedy equal to it in building up a system, that, under the influence of various diseases, hardships, or exposures, has run down or lost its natural tone and vigor. Its great secret is in its power to reach the blood, correct the vitiated fluid, and arrest the deposit of tubercle in the lungs; and it is as *safe* as it is *certain* in its action.

Some poor sufferer, full of anxiety and doubt in regard to what we say, may ask, Can your medicine restore a portion of lung that disease has entirely destroyed, leaving a cavity? We answer, certainly not, neither is this necessary in order to effect a perfect cure. If the treatment be commenced in season, but little or no portion of the lung is lost. It is necessary only to *arrest* the disease, and when this is done, the concrete albumen deposited in the tissues of the lung, technically known as tubercle, becomes absorbed, leaving perhaps a little calcareous substance which is quite harmless, and the patient finds himself in possession of whole lungs and sound health. But suppose the disease is not arrested at this early stage. The softened tubercle produces irritation; the irritation brings on inflammation of that part of the lung; the inflammation leads to ulceration, and the destruction of a portion of the tissue is the result; a cavity is formed which enlarges and does its work of death, unless the deposit of tubercle is arrested. Now, does your remedy effect a cure? *Most assuredly it does.* As soon as the disease is arrested, the tubercular matter is absorbed or expectorated, and nature either furnishes the cavity with a lining membrane, or, what is more common, where it is of large size, its walls fall together and heal up, leaving a scar, and the remaining portion of the respiratory apparatus, true to a law running through the whole physical economy, becomes somewhat enlarged, takes on increased action, and suitably compensates for that which has been lost.

Price.—One box $3,00; three boxes, ordered at one time, $8,00; half dozen, $14,00; one dozen, or any number greater, at the rate of $2,00 a box.

The postage in the United States not over 3000 miles, is fifteen cents a box; over 3000 miles, fifty cents a box. In all cases the amount should be inclosed in money or stamps; I am responsible for all money sent me by mail.

American & Foreign Patents.

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under Act of 1837,)

75 State Street, opposite Kilby-st.,

BOSTON,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same.— Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor for procuring patents.— There were few, if any, persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

[From the present Commissioner.]

"AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

A MEDICINE THAT NEVER DEBILITATES.

DR. SANFORD'S

INVIGORATOR,

OR LIVER REMEDY!

HAS ALL THE GOOD QUALITIES OF A Purgative Medicine, answering the purpose of any cathartic without the debilitating effects experienced from most purgatives. It acts slowly and gently, but surely, moving the bowels to carry off all the secreted matter, at the same time stimulating the *Liver* to a proper performance of its functions.

The Invigorator cures Sick Headache. Take one or two teaspoonful at the first attack, and it will soon disappear. For an overloaded stomach, or when food does not sour, take the Invigorator after eating, and it will not prove disagreeable. For Heartburn, Palpitation, or ill food breathing, take a teaspoonful once or twice daily. For Loss of Appetite, Languor, or Listlessness, the medicine is invaluable! It will restore the appetite and make the food digest well. Nightmare, take a teaspoonful on retiring, and the demons of dream-land will all be fated. After eating a hearty dinner, take a dose of Invigorator, and it will relieve all oppression or illness. The Invigorator is a Liver Remedy of unrivaled virtue, acting directly on that organ, curing Dyspepsia, Jaundice, Bilious Attacks, Dysentery, Piles, Worms, and all Female Obstructions, for which it has no equal.

We know there is nothing now before the American public prepared with such skill by a scientific man, particularly for diseases of the Liver, as Dr. Sanford's Invigorator or Liver Remedy. It has attained a reputation second to no other article in the world, simply because it stands on its own merits. To convince all by trial that it is all that its proprietors claim it to be, it any of our readers are suffering from any such diseases as are described in Dr. Sanford's advertisement, we know that no remedy that will so surely cure them as the Invigorator.

There has lately been brought to our notice a medicine that seems to possess wonderful curative and healing properties in diseases of the Liver, Stomach and Digestive organs. We refer to its with many testimonials in its favor that we have noted its effects in some of the worst cases of continued debility caused by deranged Liver, and in every instance the effect was to relieve and give a permanent cure. Dr. Sanford's Liver Invigorator is what we refer. We always have been incredulous about cures by patent medicines, but we are convinced that this medicine, for family use, is not overrated by the best of recommendations it has. Our advice is, to all troubled with Indigestion, Debility or Bowel Complaints, to get a bottle and try it, our word for it, relief will be experienced.

Blessings to the Invalid who use Dr. Sanford's Invigorator, for it will relieve them of their pain and soon will it take the distress from the stomach. Pain and misery cannot exist where the Invigorator is used, for it will surely drive them away, as daylight will banish darkness. Of this there can be no doubt in those who try it, for it carries conviction with every dose taken. Another evidence is the thousands of certificates in possession, who, with it, have been cured by it. Try one bottle—if it does not benefit, then we are mistaken.

LINCOLN'S

WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which, perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, commend it to the public as the best article in the market.

The medical properties of Dandelion are well known and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and all persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our Taraxacum has our trade mark—"Chinaman Grinding Coffee"—as there are many imitations of our so called Taraxacum in the market.

☞ *To Grocers and Dealers* a liberal discount made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be exceeded by those who do business on the credit system; and we confidently invite an examination of the quality of our stock, and our prices, as compared with those of any other house.
